### TRADE AT Homol'ovi

There were no megastores 700 years ago! Residents at Homol'ovi traded with others for things they did not have. Many items came from as far away as 250 miles--a 10-day walk!

On the map, place these trade items found at Homol'ovi in the locations from which they originated.

Hint: Look at the Trade section of the exhibit to see some of these objects.
